

RENEWABLES GLOBAL FUTURES REPORT

Online Supplement

BIBLIOGRAPHY

Draft January 16, 2013

REN21 Renewable Energy Policy Network for the 21st Century

Institute for Sustainable Energy Policies

GENERAL

- Asia-Pacific Economic Cooperation/Asian Development Bank. 2009. *Energy Outlook for Asia and the Pacific*. Mandaluyong City, Philippines. 400 pp.
- Bloomberg New Energy Finance. 2011. *Global Renewable Energy Market Outlook* (GREMO). London.
- Bloomberg New Energy Finance and Frankfurt School UNEP Collaborating Center (BNEF/UNEP), 2012, *Global Trends in Renewable Energy Investment 2012*. London.
- BP. 2012. *BP Energy Outlook 2030*. London. 88 pp.
- Bradford, Travis, 2006, "Solar Revolution: The Economic Transformation of the Global Energy Industry," Cambridge, MA: MIT Press.
- Brazil Ministry of Mines and Energy. 2010. "Outlook for Alternative Renewable Energy in Brazil." Brasilia. 28 pp.
- China Energy Research Institute, 2009, "China's Low-Carbon Development Pathways by 2050," Beijing, 168 pp.
- China Energy Research Institute. 2009. *China's Low-Carbon Development Pathways by 2050*. Beijing. 168 pp.
- China Energy Research Institute. 2011. "Potential Secure, Low-Carbon Growth Pathways for the Chinese Economy." Beijing. 27 pp.
- Chinese Academy of Engineering, 2008, "China Renewable Energy Development Scenarios and Strategies," Beijing, 409 pp.
- Chinese Renewable Energy Industries Association. 2012. "Study of High Percentage Renewable Energy in China." Beijing.
- Confederation of Indian industry, 2008, "Building a low carbon Indian Economy," Haryana, 136 pp.
- Energy Watch Group, 2008, "Renewable Energy Outlook 2030," Bonn, 155 pp.
- Eurelectric. 2009. *Power Choices – Pathways to Carbon Neutral Electricity in Europe by 2050*. Brussels. 96 pp.
- European Climate Foundation, 2010, "Roadmap 2050: A Practical Guide to a Prosperous, Low Carbon Europe," The Hague, 100 pp.
- European Commission, 2008, "EU Strategic Energy Review," Brussels, 68 pp.
- European Commission. 2009. *EU Energy Trends to 2030*. Luxembourg. 184 pp.
- European Commission. 2011. "Energy Roadmap 2050." Luxembourg. 22 pp.
- European PV Industry Association (EPIA), 2010, "Global Market Outlook for PV by 2014," Brussels, 28 pp.
- European Renewable Energy Council. 2010. *RE-thinking 2050: 100% Renewable Energy Vision for the European Union*. Brussels. 76 pp.
- European Wind Energy Association (EWEA), 2003, "Wind Power Targets for Europe: 75,000 MW by 2010," Brussels. 27 pp.
- European Wind Energy Association and Greenpeace International, 1999, "Wind Force 10: A Blueprint to Achieve 10% of the World's Electricity from Wind Power by 2020," London. 47 pp.
- European Wind Energy Association. 2011. *Pure Power: Wind Energy Targets for 2020 and 2030*. Brussels. 97 pp.
- ExxonMobil. 2012. *ExxonMobil – The Outlook for Energy: A View to 2040*. Irving, Texas. 52 pp.

- Flavin, Christopher, 1994, "Power Surge: Guide to the Coming Energy Revolution," New York: Norton.
- Fox-Penner, Peter, 2010, "Smart Power: Climate Change, the Smart Grid, and the Future of Electric Utilities," Washington DC: Island Press.
- Fraunhofer ISI, 2009, "ADAM 2 Degree Scenario," Karlsruhe, Germany, 456 pp.
- Fuller, Merrian C, Stephen Compagni Portis, and Daniel M. Kammen, 2009, "Toward a Low-Carbon Economy: Municipal Financing for Energy Efficiency and Solar Power," *Environment Magazine*, January/February 2009, Vol. 51, No. 1, pp. 22-32.
- Garg, P. 2012. "Energy Scenario and Vision 2020 in India." *Journal of Sustainable Energy & Environment*. Vol. 3. Pp. 7-17.
- GEA, 2012, "Global Energy Assessment – Toward a Sustainable Future," Cambridge, UK: Cambridge University Press, and the International Institute for Applied Systems Analysis, Laxenburg, Austria.
- German Advisory Council on Climate Change (WBGU), 2004, "World in Transition: Towards Sustainable Energy Systems," London: Earthscan.
- German Advisory Council on Climate Change (WBGU), 2011, "World in Transition: A Social Contract for Sustainability," Berlin.
- Girardet, Herbert, and Miguel Mendonca, 2009, *A Renewable World: Energy Ecology, Equity* (A Report for the World Future Council), Devon, UK: Green Books.
- Global Wind Energy Council (GWEC), 2009, "Indian Wind Energy Outlook," Brussels, 36 pp.
- Global Wind Energy Council (GWEC), 2010, "Global Wind Energy Outlook," Brussels, 80 pp.
- Global Wind Energy Council. 2012. *Global Wind Energy Outlook*. Brussels. 52 pp.
- Global Wind Energy Council/World Institute of Sustainable Energy (WISE)/Indian Wind Turbine Manufacturing Association (IWTMA). 2011. *Indian Wind Energy Outlook*. Brussels. 64 pp.
- Greenpeace USA, 2001, "Losing the Clean Energy Race: How the US Can Retake the Lead and Solve Global warming?" Washington DC. 29 pp.
- Greenpeace/EREC, 2008, "Energy Revolution India," Amsterdam, 52 pp.
- Greenpeace/European Renewable Energy Council (EREC). 2011. "Energy [R]evolution Japan." Tokyo. 108 pp.
- Greenpeace/European Renewable Energy Council (EREC). 2011. *Energy [R]evolution South Africa*. Johannesburg. 108 pp.
- Greenpeace/European Renewable Energy Council (EREC). 2012. *Energy [R]evolution European Union*. Brussels. 128 pp.
- Greenpeace/European Renewable Energy Council (EREC)/Global Wind Energy Council (GWEC). 2012. *Energy [R]evolution: A Sustainable World Energy Outlook*. Amsterdam. 339 pp.
- Greenpeace/European Renewable Energy Council (EREC)/Global Wind Energy Council (GWEC). 2012. *Energy [R]evolution India*. Richmond Town Bangalore, India. 80 pp.
- Greenpeace/European Renewable Energy Council (EREC)/Global Wind Energy Council (GWEC). 2012. *Energy [R]evolution United States*. Forthcoming.
- IEA-Renewable Energy Technology Deployment (IEA-RETD), 2010, "RETRANS: Opportunities for the Use of Renewable Energy in Road Transport: Policy Makers Report," Paris.
- IEA-Renewable Energy Technology Deployment (IEA-RETD), 2012, "Renewable Energy Action on Deployment (READY)," forthcoming.
- Institute for Sustainable Energy Policies (ISEP). 2011. "From 'Unplanned Power Outages' towards a 'Strategic Energy Shift': Report on Energy Shift after March 11th." Tokyo. 22 pp.

- Intergovernmental Panel on Climate Change. 2011. *Renewable Energy Sources and Climate Change Mitigation Special Report*. New York. 1076 pp.
- International Energy Agency, 2000, *World Energy Outlook 2000*, Paris. 444 pp.
- International Energy Agency, 2003, *Energy to 2050: Scenarios for a Sustainable Future*. Paris.
- International Energy Agency, 2005, *World Energy Outlook 2005*, Paris. 629 pp.
- International Energy Agency, 2007, *Renewables for Heating and Cooling*, Paris.
- International Energy Agency. 2008. *Deploying Renewables: Principles for Effective Policies* (Paris: OECD), 198 pp.
- International Energy Agency, 2009, "Cities, Towns, and Renewable Energy," Paris.

ENERGY STORAGE

- Baxter, R, 2006, "Energy Storage: A Non-Technical Guide," Tulsa, Oklahoma: PennWell.
- Denholm P, Ela E, Kirby B, Milligan M, 2010, "The Role of Energy Storage with Renewable Electricity Generation," NREL Technical Report (NREL/TP-6A2-47187), Golden, Colorado.
- Eyer J, Corey G, 2010, "Energy Storage for the Electricity Grid: Benefits and Market Potential Assessment Guide," Report SAND2010-0815, Los Alamos: Sandia National Laboratories.
- Hadjipaschalis I, Poullikkas A, Efthimiou V. 2009. "Overview of current and future energy storage technologies for electric power applications," *Renewable and Sustainable Energy Reviews* 13 (2009) 1513–1522.
- Ibrahim H, Ilinca A, Perron J, 2008, "Energy storage systems—characteristics and comparisons," *Renewable and Sustainable Energy Reviews* 12 (5): 1221–1250.
- Rastler D, "Electricity Energy Storage Technology Options," White Paper (1020676), Palo Alto: Electric Power Research Institute (EPRI).
- Zito R, 2010, "Energy Storage: A New Approach," Wiley/Scrivener Publishing LLC.

SMART GRIDS

- International Energy Agency, 2011, "Technology Roadmap – Smart Grids," accessed through: http://www.iea.org/papers/2011/smartgrids_roadmap.pdf
- European Commission, 2006, "European Smart Grids Technology Platform," accessed through: http://ec.europa.eu/research/energy/pdf/smartgrids_en.pdf
- US Dept of Energy, "The Smart Grid: An introduction," accessed through: <http://energy.gov/oe/downloads/smart-grid-introduction-0>
- National Energy Technology Laboratory, 2010, "Understanding the Benefits of the Smart Grid," DOE/NETL-2010/1413, Golden, CO.
- European Technology Platform SmartGrids. 2010. "SmartGrids Strategic Deployment Document for Europe's Electricity Networks of the Future." Brussels
- Electric Power Research Institute. 2009. "Report to NIST on the Smart Grid Interoperability Standards Roadmap." Palo Alto, CA
- Bazilian M, Welsch M, Divan D, Elzinga D, Strbac G, et al. 2010. "Smart and Just Grids: Opportunities for sub-Saharan Africa." London: Imperial College.

DISTRIBUTED GENERATION

- Karger CR, Hennings W, 2009, "Sustainability evaluation of decentralized electricity generation," *Renewable and Sustainable Energy Reviews* 13 (3): 583–593.
- Pepermans G, Driesen J, Haeseldonckx D, Belmans R, D'haeseleer W. 2005. "Distributed generation: definition, benefits and issues," *Energy Policy* 33 (2005): 787–798.
- Randolph, John, and Gilbert M. Masters. 2008. "Distributed Energy Resources," in *Energy for Sustainability: Technology, Planning, Policy* (Washington DC: Island Press), pp. 393-427.

ADVANCED VEHICLES

- Bradley TH, Frank AA, 2009, "Design, demonstrations and sustainability impact assessments for plug-in hybrid electric vehicles," *Renewable and Sustainable Energy Reviews* 13(1): 115–128.
- Sovacool BK, Hirsh RF, 2009, "Beyond batteries: An examination of the benefits and barriers to plug-in hybrid electric vehicles (PHEVs) and a vehicle-to-grid (V2G) transition," *Energy Policy* 37 (3): 1095–1103.

Sperling D, Gordon D. 2008. "Advanced Passenger Transport Technologies," *Annual Review of Environment and Resources* 33: 63–84.

RENEWABLE ENERGY IN INDUSTRY

Taibi E, Gielen D, Bazilian M, 2012, "The potential for renewable energy in industrial applications," *Renewable and Sustainable Energy Reviews*, 16(1): 735-744.

UNIDO, 2010, "Renewable Energy in Industrial Applications: An Assessment of the 2050 Potential," Vienna.

UNIDO and TERI, 2012, "Baseline Report on Renewable Energy For Industrial Applications- A Case Study of India." Vienna.

DESERTEC

Erdle S, 2010, "The DESERTEC Initiative: Powering the development perspectives of Southern Mediterranean countries?" Discussion Paper 12/2010, Bonn: German Development Institute.

Trieb F, Schillings C, O'Sullivan M, 2011, "Solar electricity imports from the Middle East and North Africa to Europe," *Energy Policy*, Vol 42, Pg 341 -353

DESERTEC Foundation, 2009, "Clean Power from Deserts: The DESERTEC Concept for Energy, Water and Climate Security," Whitebook, 4th Edition.

CSP AND THERMAL STORAGE

International Energy Agency, 2010, "Technology Roadmap – Concentrating Solar Power," accessed through: http://www.iea.org/papers/2010/csp_roadmap.pdf

Sioshansi R, Denholm P, 2010, "The Value of Concentrating Solar Power and Thermal Energy Storage," NREL Technical Report (NREL-TP-6A2-45833), Golden, CO.

RENEWABLE ENERGY AND FOSSIL FUELS HYBRID PLANTS

Phadke A, Goldman C, Larson D, Carr T, Rath L, Balash P, Wan YH, 2008, "Advanced Coal Wind Hybrid: Economic Analysis," Berkeley, CA: Lawrence Berkeley National Laboratory.

SYNGAS FROM RENEWABLES

Mota N, Alvarez-Galvan C, Navarro RM, Fierro JLG, 2011, "Biogas as a source of renewable syngas production: advances and challenges," *Biofuels*, May 2011, Vol. 2, No. 3, pp. 325-343.

Karl J, Frank N, Karellas S, Saule M, Hohenwarter U, 2009, "Conversion of syngas from biomass in solid oxide fuel cells," *Journal of Fuel Cell Science and Technology* 6(2).

Van der Drift A, Boerrigter H, 2006, "Synthesis gas from biomass for fuels and chemicals," ECN Report ECN-C-06-001, Petten, the Netherlands.

COMMUNITY AND REGIONAL POWER SYSTEMS

Commission for Environmental Cooperation, 2011, "Guide to developing a Community Renewable Energy Project in North America," Montreal.

ESMAP, 2010, "Regional Power Sector Integration: Lessons from Global Case studies and a Literature Review," ESMAP Briefing Note 004/10, Washington DC: World Bank.

RENEWABLE ENERGY CURVES COST REDUCTIONS/ EXPERIENCE CURVES

- IEA/OECD, 2000, "Experience Curves for Energy Technology Policy," accessed through:
